PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1. In Nigeria, secondary school is for children from ages 10 to 18 but author taken age group 10-24. Kindly specify this 2. References are not according to Journal instruction it should be Vancouver style methods not in Harvard style methods.	1. There is no age limit to enrolment in secondary school in Nigeria. The school system allows drop out or matured children of migrant farmers to have secondary school education. 2. References have been corrected to agree with Vancouver style
<u>Optional/General</u> comments	1. More incidence of self medication is in between 10-14 which too younger age group to understand the questionnaire author asked.	The researchers and the trained research assistants explained the items in the questionnaire to the respondents
