Editorial Comments:

The article looks fine and finally can be published. However, the style used in figure 1 is not clear. The names of allergens (2S albumin, 11S globulin) looks like 25 albumin, 115 globulin.

Use better characters.

Author's Feedback:

Thank you for your comments. We reviewed the abstract and corrected the names of the allergens 2S albumin and 11S globulin. We used the same characters as it was a spelling error.
