SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	• This study is very interesting for traditional treatments and antifungal applications. • Experimental design is not complicated but it would be beneficial for further experimental study and applications. • From the results, Line 113-121, author explained about the expression of some enzymes which presented at different level in different stages of the <i>C. cordifolia</i> leaves. Why author didn't mention about this findings in conclusion and explain more about their importance and applications? Please, could you add some information for their relations and applications in conclusion part.	
<u>Minor</u> REVISION comments	• English writing correction such as space, Front type, Cupper or Copper?, etc.	
<u>Optional/General</u> comments	No
