PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Aim of presenting such paper is completely lacking. There are currently many papers that deals with this topics and mechanism of such herbal products have been discussed. The title is very misleading. Poorly reference. Refs should not be included in headings. Rambling of information. I have strong concerns about the quality of this manuscript and will not add knowledge to the field.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
