SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	It is an important topic but in not a new presentation or outstanding discussion.	I will like to thank the reviewer for his/her observation. However, this review article seeks to bring together previous reports relating to the title "MiRNA and target oncogenes in Triple negative breast cancer; major players in age and ethnic related neoplastic events" into a single paper. More so, this paper aims at stimulating the minds of researchers, particularly those in Africa, to find out the reason behind the high prevalence of Triple negative breast cancer in individuals of African descent. Thank you very much.
