**SDI Review Form 1.6**

**PART 1: Review Comments**

|  | <b>Reviewer's comment</b>   | <b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>   |
|--|---|---|
| <b><u>Compulsory</u></b> REVISION comments | What is in the table should not be repeated in the text, because it is self-explanatory. This makes the reading tiring and the article long.  | Dear reviewer,<br>Thank you very much for your help and kind comments.<br>The required revisions for our manuscript are completed. We highlighted the changes in the manuscript by using coloured text in yellow. Our point-by-point responses to the comments are below.<br>-Per your suggestion repeated part has been deleted in the text. |
| <b><u>Minor</u></b> REVISION comments      | L48: replace H&E by heamatoxylin and eosin (H&E).<br>L123: Replace "In Table" by "In Table 1" and number the table.<br>L165-184 There is a large literature review in this part of the discussion. Please, use only the main conclusions of the authors.<br>Ex: "After reviewing 6275 nevi with 169 architectural disorder, Arumi-Uria et al. concluded that the risk 172 of melanoma increases as the grade of atypia increases".<br><br>L161, L209. L181, L215 "We think" is not scientific language. Please, delete them and rewrite the sentences if necessary. | -Corrected per your suggestion.<br>-Revised per your suggestion.<br><br>-Per your suggestion, this part has been revised and only the main conclusions of authors have been included.<br><br>-Per your suggestion they have been deleted.   |
| <b><u>Optional/General</u></b> comments    | It is a well written paper with very relevant topic.  | - Thank you very much for your help and kind comments.  |
