SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The manuscript studied the difference of elements between Ewing's sarcoma and normal bone tissue, and found Co, Fe, Se and Rb are significantly changed in Ewing's sarcoma tissue. The results are interesting and are of significant importance to oncology study. To solidify the conclusions, the authors should test these elements in non-tumour tissue from the patients with Ewing's sarcoma.**	
Minor REVISION comments		
Optional/General comments	Table 1 and 3 can be deleted due to repetition.
