**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                                                                                                                                                                                                                                                                                         | <b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                             |
| <b><u>Minor</u></b> REVISION comments      | <p>I only suggest to add the following key paper which cover well the pathophysiology of glaucoma:</p> <p><u><a href="#">Keeping an eye on myocilin: a complex molecule associated with primary open-angle glaucoma susceptibility.</a></u><br/> Menea F, Braghini CA, Vasconcellos JP, Menea B, Costa VP, Figueiredo ES, Melo MB.<br/> Molecules. 2011 Jun 27;16(7):5402-21.</p> |                                                                                                                                                                                             |
| <b><u>Optional/General</u></b> comments    | That's an interesting, well written and structured paper.                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                             |
