SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		We would like to thank the reviewer for her/his remarks, which will certainly contribute to improve the paper.
<u>Minor</u> REVISION comments	1-Please check key words according MeSH system 2-More explain about other reports of early involvement of eye in sarcoidosis 3- It is not clear of small round spot in figure3; please show into picture. 4-your case was tested routinely, why? 5-write the normal range of ACE 6- add chest x-ray and pathology of the case	1. Key words were checked by MeSH system and changed. 2. More comprehensive literature about ocular involvement of sarcoidosis was added. 3. Small round spots were shown by arrows in figure 3. 4. In our routine practice, all cases of granulomatus uveitis are evaluated with a multisystemic approach for underlying granulomatous diseases such as tuberculosis and sarcoidosis. 5. Normal range of ACE was given 6. Chest X-ray was added, but pathology specimen could not be achieved.
<u>Optional/General</u> comments
