SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**Introduction** It is too short and there is no introduction of corneal involvement in HZO. **Case report** Although it was written in the manuscript that this patient had frequent recurrences and remissions of epithelial/stromal keratitis but the author did not described the patterns of keratitis in order to answer the aim of this case report presentation. Suggest describing the varying patterns of dendriform keratitis for each attack. The photo of HZO keratitis patterns should include in this case report session. **Discussion** Suggest moving the description of the varying patterns of keratitis (with photo) from D**iscussion** into **Case report** session.	
Minor REVISION comments		
Optional/General comments	Nice and good photos of HZO keratitis.	

Note: Anonymous Reviewer
