SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	It will be better if the author elaborates if the more sever ocular manifestations were common in the patients with positive immunological alterations . For example if the patients with scleritis were common in the patients with positive immunological parameters or not. Ethical issue: No ethical issues involved	We agree. We have added an explanation
<u>Minor</u> REVISION comments	Line no.12 Keratoconjunctivitis spelling error Line no. 64 Rheumatoid spelling error	We agree. We have revised
<u>Optional/General</u> comments	Over all It is a good article but needs more discussion of its results	Thank you for your supportive comments and suggestions
