SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. No case report is complete without treatment and follow up of the patient. 2. The author has not written any examination findings of left eye in the case report. 3. Any visual improvement after refraction also has to be written in the case report. 4. The size of one of the foreign bodies is not correctly written. In figure 3 and 4, one wooden foreign body looks much longer than what is written in the text-- line 48. The correct size of other foreign body should be written. 5. Any other manifestations and complications of retained wooden foreign bodies in the conjunctiva, reported in the literature should be written in the discussion. 6. References are to be written as per the format of the journal. Authors' names are not written in many references. All the above points should be included in the revised manuscript.	
<u>Minor</u> REVISION comments	There are many grammar errors, type errors throughout the paper (lines 19,20,21,22,23,24,27,37,40,46,47,53,66).	
<u>Optional/General</u> comments
