SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	ABSTRACT: no figures are written in the abstract. Therefore, fig.1 should be removed in lines 11 and 13. INTRODUCTION: references from the available literature should be written for the statement written in lines 39,40. several case reports have been published. CASE: line 49 --- race (ethnicity) of the patient should be written because this paper is dealing with deposition of pigmentation in tissues of the body. Colour of the skin on the body is important finding to be mentioned also. Line 57 ---Fundus examination findings should be written whether there was any pigmentation in the retina or not. Line 59 --- Was there any deposition of pigmentation (as seen on the forehead) on the hands and fingers which are exposed to ultraviolet rays ? Lines 90 to 93 --- these should be removed because the same points are mentioned at the end of discussion section. DISCUSSION: line 137 --- the purpose of this case study is should be written as separate paragraph.	
<u>Optional/General</u> comments	This is an interesting and rare case report.
