SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
Minor REVISION comments	In methods, abbreviation of BCVA is not explained, although it is a well-known acronym.	
	A normal database is known using OCT SPECTRALIS. Why was it necessary to create an own normal database?	
	The reference list is not unified in its format.	
Optional/General comments	Very interesting, although a bit long introduction.	
	It is an excellent, well-written and logical paper based on results of a collaboration of ophthalmological and psychiatry departments.	

Reviewer Details:

Name:	Gabor Nemeth
Department, University & Country	Department of Ophthalmology, University of Debrecen, Debrecen, Hungary
