SDI Review Form 1.6

PART 1:

Journal Name:	Physical Review & Research International
Manuscript Number:	MS: 2012/PRRI/2399
Title of the Manuscript:	The classical mechanics from the quantum equation.

General guideline for Peer Review process is available in this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

• This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer,
		correct the manuscript and highlight that part in
		the manuscript. It is mandatory that authors
		should write his/her feedback here)
Compulsory REVISION comments	This work belongs to the line of research that tries to	
	associate the appropriate equations to the evolution	
	of the probability density of quantum systems. The	
	work is very formal and perhaps it would be	
	necessary to provide some more explanation than is	
	provided. Also recommend the author to read and	
	cite the work of laura Morato about a more complex	
	version of the ordinary Madelung fluid and those of	
	Michele Pavon that associate a Hamiltonian	
	formalism to stochastic mechanics that could be	
	useful in the context of this model.	
Minor REVISION comments		
Optional/General comments		
		1
