Subject: Re: MS: 2012 PRRI 2609 : Invitation to Review Manuscript for Physical Review & Research International

Dear Editor

Corrections in the manuscript

"Biodiesel Production from Tigernut(Cyperus esculentus) Oil and Characterization of the Blend with Petro-diesel"

1-Line 147, Table 2,
Oil content (%) 15.91

This value is % oil in the seed not in the oil? To be corrected.

2-Line 164, Table 3

Biodiesel yield is 82% which is not as the Std ASTM value which is to be equal or more than 95%

and revise all values of different physicochemical properties of the different blends not being in accordance with the blend %
So the paper can be accepted after the corrections.

With my best wishes.

Prof.Dr. XXX YYY
