subject: RE: Request for final decision for manuscript number 2012 PRRI 2884

I believe that the paper can be published in its latest form, as it represents some incremental yet valuable advance in a relatively neglected field which however still deserves attention. Furthermore, I feel the possible plagiarism issue has been adequately addressed by the authors. In fact, to a human reader, the two articles, while displaying some overlap of material and wording, appear notably different. Kindest regards, XXX YYY
