

SDI Review Form 1.6

PART 1:

Journal Name:	Physical Review & Research International
Manuscript Number:	MS: 2012_PRR1_2931
Title of the Manuscript:	Synthesis, spectroscopic characterization, X-ray crystallographic studies and antibacterial screening of 1-(5-(4-chlorophenyl)thiazol-2-yl)hydrazine hydrobromide.

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript is well documented, but I have big problem with the method they used for antibacterial activity. Agar diffusion method is not so useful. There is no MIC.	
<u>Minor</u> REVISION comments	Authors did not follow the instructions regarding references	
<u>Optional/General</u> comments	Even manuscript is well documented I don't think that it could be accepted as original paper. I think that it could be accepted only as short communication.
