subject: Re: Re: Request for final decision for manuscript number 2012 PRRI 2933

Dear editor,

I have carefully read all materials, including both manuscripts and review comments. This paper is interesting which proposed that the variation in solar wind is a major driving force for climate change. After revision according to previous comments, the paper provides more detail and get more convictive. I recommend accepting it for publication.

Best Regards,

XXX YYY
