

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Review & Research International
Manuscript Number:	MS: 2012_PRR1_2965
Title of the Manuscript:	Diagnostic of laser induced Li II plasma

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
It is good that the result when d= 2 mm is included in the paper. The authors inserted a sentence "The first region is a transient region, rapid ...". The reviewer suggests that the authors indicate which figure they are talking about. The reviewer also suggests that the sentence "d is the distance from the target surface" is included in the caption of fig 1.
