### **PART 2:** Review Comments

|  | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <b><u>Compulsory</u></b> REVISION comments | The paper discusses on an important and relevant issue in Nigerian power sector. The study is timely. Mean while, major revision is necessary. First and foremost, the author did not set up the objective of the study after the introduction/ background. This was mentioned in the abstract. Apart from this, majority of the references are from national dailies, as science/engineering base paper to be circulated world- wide, this is not ok. There are some grammatical/ typos errors to be corrected. These are indicated in the text. |   |
| <b><u>Minor</u></b> REVISION comments      |   |   |
| <b><u>Optional/General</u></b> comments    |   |   |
