

SDI Review Form 1.6

PART 1:

Journal Name:	Physical Review & Research International
Manuscript Number:	2013_PRRI_3663
Title of the Manuscript:	Characterization of Nanoinclusion in Nanocomposite

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	<p>1-The title of the paper is 'Characterization of Nanoinclusionins in Nanocomposite.' But the real content of the paper is a simple numerical analysis of the stress field of a short fiber in a matrix which is perturbed by nearby inclusions. The title doesn't match the content of the paper.</p> <p>2-It is noted that the 'nano fiber' is only 40 nm long. The authors should seriously consider if the reinforcement can be called a fiber. What's the dimension of the inclusions?</p>	<p>1-The title is changed to: "The Impact of Embedded Nanoinclusion in Nanofiber Reinforced Composite" To highlight the main objective of the study.</p> <p>2- A references are added in the introduction to clarify the scale of the nanofiber range.</p> <p>Note: Most of the references are cited with their corresponding doi.</p>
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		Thank you professor for the invaluable feedback.
