

**SDI Review Form 1.6**

Journal Name:	<a href="#">Physical Review &amp; Research International</a>
Manuscript Number:	2013_PRRI_5866
Title of the Manuscript:	Studying the effect of vertical eddy diffusivity on the solution of diffusion equation
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b><u>Compulsory</u></b> REVISION comments	<p>The work is poorly written, unclear and full of errors.</p> <p>A very great error is that it is possible to write the EQ. (3) only if the diffusion coefficient (k) is constant in z, unlike those used are not constant and all the paper deal with non-constant vertical eddy diffusivity. So all the paper is wrong.</p> <p>There are errors in the figures and in statistical indices</p> <p>The conclusions are inconsistent The English is very poor.</p>	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments
