

SDI Review Form 1.6

Journal Name:	Physical Review & Research International
Manuscript Number:	2013_PRRI_5866
Title of the Manuscript:	Studying the effect of vertical eddy diffusivity on the solution of diffusion equation
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	I suggest rearranging the format of paper especially in references because they did not apply same format for whole of references. Their explanation in conclusion was not enough I suggest rewriting it. I suggest using the standard format of table, figures , ..because I think it is better to decrease the size of formula .	
<u>Optional/General</u> comments	In This paper auteurs used Laplace transformation technique considering the wind speed depends on vertical height.
