

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	2014_PSIJ_13999
Title of the Manuscript:	Plane Symmetric Vacuum Cosmological Model with a Special Form of Deceleration Parameter in Theory of Gravity
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	<p>After reading the paper, I found that revision is required:</p> <p>1-The introduction requires a revision as many references are missed dealing with $f(R)$ gravity, e.g. Living Rev. Rel. 13: 3, 2010; 2011 Res. Astron. Astrophys. 11 759; arXiv:0909.4672</p> <p>2-similar solutions to section 4 are found in literature and authors are asked to compare their results with the results found in literature.</p> <p>3-Graphs must not be included in conclusions. Conclusions must be concise.</p>	<p>1. All these references are added in Introduction and References.</p> <p>2. Such type of comparison has been made and it has been included in Conclusion .</p> <p>3. Graphs are separated. The conclusion part has been written concisely.</p>
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
