

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	2014_PSIJ_9605
Title of the Manuscript:	The magnetized plasma effect on cathode fall thickness for helium gas discharge
Type of the Article	Basic experimental plasma characterisation

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The proposed topic is very interesting for cold plasmas research. However, I strongly suggest that the manuscript be proofread more carefully for grammar and notation mistakes. Use 3; 3.1; 3.1.1, to separate sections. In section 3-2.b-2 give details (and data) of the calculations.	CORRECTED
<u>Minor</u> REVISION comments	Check the figures for uniform notation of axis titles and units and provide better quality (use Origin software).	CORRECTED
<u>Optional/General</u> comments	Use one type theme fonts (times new roman) and Equation to write both the text and equations.	CORRECTED
