PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	2014_PSIJ_12576
Title of the Manuscript:	Electron energy levels for a finite elliptical quantum wire in a transverse magnetic field

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors have taken care of the points raised. The manuscript is technically OK but there are still some grammar issues. For instance, I propose line 116 to read: ... with which ... instead of: ... as which ...	<ol style="list-style-type: none">1. "As which" in line 116 is changed to "with which".2. "Or the value of the magnetic field equal to zero" in lines 228-229 is deleted.3. "Have" is added before "obtained" in line 230.
