

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	2014_PSIJ_12727
Title of the Manuscript:	Electromagnetic fields of self-modes in spherical resonators
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	"In this article a physical theory of self-modes of electromagnetic resonators is presented." (ABSTRACT) But "elimination of unphysical singularities" is stated in CONCLUSIONS. That is why the informational flow in between appears annihilated completely.	I'd like to draw the attention of the referee at the last paragraph of section 3, which speaks directly to solving the problem of singularity.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
