

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	2013_PSIJ_7803
Title of the Manuscript:	Synthesis, Crystal structure, and Antimicrobial Activities of Di ((E)-2-(pyridine-2-ylmethylene)hydrazinecarboxamide)cobalt(II) dichloride trihydrate

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors have made some typographical corrections but they have not responded to the main points: to put this work into meaningful context by referring to some of the many related structures containing the same ligand and by giving a proper description of the packing. The Figures are still completely unacceptable.	Description of the packing is changed by referring some other related structures. Fig.2 is removed and a new fig.2 is included. For the sake of clarity to show the hydrogen bonding interactions Fig. 3 is placed without unit cell.
