Subject: Re: Request for final decision for manuscript number 2014_PSIJ_10668

Seems of the 3 referees, 2 are very keen and the 3rd rejects it because he/she thinks it is nothing novel. However, given that this is a review paper, it should be ok.

I recommend publication.

The author should add somewhere in the abstract that "The material presented is standard but we summarize some key points on measure theory which might prove to be useful for the undergraduate."
