Subject: RE: Request for final decision for manuscript number 2014\_PSIJ\_12260

The paper can be published as is, given the very good feedback received from the referees.

Finally, could the referee concern explained why he stated

<b>Are there ethical issues in this manuscript?</b>	Yes, there are
---	----------------

What are the ethical issues he is referring to? As the author declared that there are no ethical issues involved. If he withdraws the comment, please proceed to publication.
