Subject: RE: Request for final decision for manuscript number 2013\_PRR1\_6994

I have gone through the all the reports and the replies, in fact everything. Most of the referees seem to be satisfied with the final version of the manuscript. However, the authors have not adequately addressed to the comments of Prof. D.G who has made some valid questions and also pointed out some mistakes and some suggestions which may be minor in nature, but no paper should be published with mistakes or ambiguities particularly when we have been made aware of hem by one of the learned referees.

I would therefore suggest that the final report of Prof. D.G be sent to the author so that that remove the ambiguities and make the necessary revisions. Since Prof. D.G has expressed his unwillingness to review the paper for the fourth time, the revised manuscript can be directly sent to me.
