SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	I have checked the manuscript and it seems to be technically sound but there are a lot of poor syntax plus grammatical errors which need to be adhere before going through the publications process. The format including abstract, introduction, experimental and results and discussion part is OK but the English needs to be corrected. I have mentioned some of the mistakes or poor sentences on the text which should be taken into account for correction by the authors as these are not clear.	
<u>Optional/General</u> comments
