SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	On lines 84, 85, 179, 180, -221.224, 225.227 219, 229-232, correct conjointly written Latin. You also need to fix the spelling of the Latin table 1. Also correctly write <i>Seriatopora stellata</i> , <i>Porites mayeri</i> , <i>Acropora macrostoma</i> 123 lines <i>Seriatopora stellata</i> and – <i>Seriatopora stellata</i> and	
<u>Minor</u> REVISION comments	Sentence, “Dead coral are not actually pure because trace amounts of macroalgae were visible on the surface» there are not correct. When corals (polyps) as an animal to die from them remain only calcareous skeletons. They may not be partially or not partially dead, they do not exist in nature, but there is only the carbonate basis on which you can settle any corallobionts	
<u>Optional/General</u> comments	The article contains non-trivial research methods of a coral reef that will be of interest to readers	

Note: Anonymous Reviewer
