<b>IF THIS is the final corrected version, there are other 2 vital issues that must be done to fit into a reputable journal like SCIENCEDOMAIN Inc:</b> <b>1) Referencing in this article is inappropriate. There are few (if more than 1) text-citing and wrongly cited, such as: (Mohd Ridhwan Bin Ramli, 2010) instead of a single Author's last name and date. Most, if not all, reference listings are not cited in the texts.</b> <b>2) There is no usual indicated section for discussion of the results</b>
