

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	2014_PSIJ_9605
Title of the Manuscript:	The magnetized plasma effect on cathode fall thickness for helium gas discharge

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>I am not satisfied with the quality of figures, i.e. captions are not clear, see figure 1.</p> <p>It is not reasonable way to write "Figure (1.a,b): (a) A schematic diagram of the plasma cell , (b) the radial and axial distribution for the magnetic field strengths"</p> <p>In figure, where is 'a' and 'b'. Similarly in Figure 2, 'V' are overlapping with Horizontal axis.</p> <p>I cannot recommend for publication.</p>
