Subject: Re : Fwd: Request for evaluation of revised paper, reference number: 2014_PSIJ_13999

I have read the revised version and I still have 2 points to ask about that will make the paper more valuable.

1-It seems that the solution (4.3) corresponds to an asymptotically static universe. This is interesting, and I suggest at this stage to discuss this point and to compare the results obtained with Phys. Rev. D 85, 06351, (2012) and Phys. Rev. D 88, 104019 (2013)

2-what are the real motivations behind equation (4.1)?

3-many references are missed:

S. Nojiri, S. D. Odintsov, Int. J. Geom. Meth. Mod. Phys., 4, 115, (2007)

Chandel, S. et al. Indian J. Phys. 87, 1283 (2013)

Harko, Tiberiu et al. Phys. Rev. D 84, 024020 (2011)

R. A. El-Nabulsi, General Relativity and Gravitation, 42, 1381 (2010)

Reddy, D.R.K. et al. Astrophys. Space Sci. 342, 249 (2012)

After following these points, the paper can be published.
