Manuscript Number:	**2014_PSIJ_12727**
Title of the Manuscript:	**Electromagnetic fields of self-modes in spherical resonators**

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The author has given more detailed expression for wk ($\Delta\theta$). In this field, the author also has some work in their previous articles. I suggest that the article can be published because a physical theory of self-modes of electromagnetic resonators is really presented in this article and their references.
