

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	2014_PSIJ_9390
Title of the Manuscript:	Spectral Discrimination of Coral Reefs on the Small Islands,Spermonde Archipelago, Indonesia

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Manuscript changed for the better. But the author's stubbornness worthy of better application ignores the correct spelling of Latin names. I corrected them and highlighted in red font.</p> <p>I still insist that it can not be part of dead coral. The fact that the article is a partially dead coral is actually calcareous skeleton (a piece of calcium) overgrown by microalgae. Living Egyptian and mummy covered with remnants of clothing - are completely different things.</p> <p>Fix names in the cluster and to Fig. 2, 3</p>
