2. Author Reply for Special Query

I'll try to answer your question. First of all, a thesis you have found (<http://sfm.eventry.org/>) doesn't concern as a publication in Russia. Consequently, I can't put it into my list of publications yet. Second, both articles differ textually and factually. Moreover, journal where I publish my last results (Proc. of Saratov State Univ) does not ask any kind of Copyright transfer. They have only one preference - all publications are free of charges. A propos, one of the reasons to send my article to your journal was 0\$ charges as it leads from your letter! So in any cases I will sign only one copyright form.

In any case you will be free to do all according to your mind
