

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	2015_PSIJ_16087
Title of the Manuscript:	Investigation of disordered state in the distribution of diluted interaction coupling Using Ising Spin model in Two Dimension
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1. ρ and L values are overlapping. This needs to be corrected. 2. Different values of L are needed to be marked in figure 2 3. The author requires to justify the decrease in the interaction coupling between distant spins with increase in ρ from figure 4	Thank you very much for the comments and I accepted all the comments
<u>Optional/General</u> comments	The findings provided are new.
