

**SDI Review Form 1.6**

Journal Name:	<a href="#">Physical Science International Journal</a>
Manuscript Number:	2015_PSIJ_16503
Title of the Manuscript:	A METHOD FOR COMPUTING INITIAL APPROXIMATIONS FOR A 3-PARAMETER EXPONENTIAL FUNCTION
Type of the Article	Review Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<b>ethical issues:</b>  <b>A modified method (MM) for computing initial guess values (IGVs) of a single exponential class of transcendental least square problems which improve multiple goal function (MGF) method.</b>	<ol style="list-style-type: none"><li>1. I have not considered changing this title because when I mention an exponential, it's a class of transcendental functions so mention transcendental and exponential class would seem like a repetition.</li><li>2. The earlier MGF was proposed by me, in that regard there is no ethical violation.</li></ol>
<b><u>Minor</u></b> REVISION comments	There are some typing mistakes. It is suggested to avoid the typing mistakes.	<ol style="list-style-type: none"><li>1. Those that have been observed have been corrected.</li></ol>
<b><u>Optional/General</u></b> comments
