

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

|                          |  |
|--------------------------|--|
| Journal Name:            | <a href="#">Physical Science International Journal</a>                   |
| Manuscript Number:       | 2014_PSIJ_12970  |
| Title of the Manuscript: | Effect of High Voltage on Texture, Color, and Growth of Aloe Vera Leaves |

**PART 2:**

| FINAL EVALUATOR'S comments on revised paper (if any)  | Authors' response to final evaluator's comments  |
|---|--|
| <p>The information such that the leaves were electrostatically shielded by the aluminium foils is very important and it should be stated in the text very clearly.</p> <p>To my opinion their aim is to show the deterioration of natural plant by the high electric field. In this context, I agree with their opinion.</p> <p>Another problem that I pointed out was the sequence of tenses. So far I checked, this problem was improved.</p> | <p>Thanks for your valuable suggestions. We have revised the paper thoroughly and have corrected it as suggested by you.</p> |
