

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	2015_PSIJ_18414
Title of the Manuscript:	THE COMPUTATIONAL LIMIT TO QUANTUM DETERMINISM AND THE BLACK HOLE INFORMATION LOSS PARADOX
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	No revisions	
<u>Minor</u> REVISION comments	No revision	
<u>Optional/General</u> comments	The paper shows that the exponential time hypothesis is not compatible with quantum determinism, i.e. one cannot compute faster than system's evolution. This is an interesting result. I recommend publication.	I appreciate the positive evaluation of my paper by the Reviewer and want to express my sincere gratitude toward the Reviewer.
