PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	2014_PSIJ_10134
Title of the Manuscript:	Magneto-thermal Instability of Rotating Partially Ionized Hall Plasma Flowing Through Porous Medium

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors, to a large extent, have addressed the main queries in the revised manuscript. There are still some typos in the manuscript which should be corrected during the proof-reading stage. Nevertheless, since the work is well motivated and mathematically correct, I have no hesitation in recommending its publication.
