SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	2015_PSIJ_17444
Title of the Manuscript:	Combined use of different geoelectrical arrays for hydrogeophysical characterization of a Crystalline Basement Complex environment
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that <u>NO</u> manuscript should be rejected only on the basis of '<u>lack of Novelty'</u>, provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (<i>if agreed with reviewer,</i> <i>correct the manuscript and highlight that part in</i> <i>the manuscript. It is mandatory that authors</i> <i>should write his/her feedback here</i>)
<u>Compulsory</u> REVISION comments	Figure 6 section is not clear and hard to see. The term of (combined used of arrays) is not suitable in this article. Example refer to [IOP Conf. Series: Earth and Environmental Science 23 (2015) 012009 doi:10.1088/1755-1315/23/1/012009] or [article in Applied Mechanics and Materials, Volume 661, Pages 73- 80] for the actual of combined two different arrays in electrical method. But this article is about the multiple used of three different arrays to imaging the Earth's subsurface. Therefore, the title is not suitable in order to reflex the content of this research.	
Minor REVISION comments	-	
Optional/General comments	-
