<b><u>Compulsory</u></b> REVISION comments	<b>1-The motivations are unclear, 2-The comparisons with observations must be done, 3-The mathematical equations obtained are unclear. I suggest numerical illustrations or numerical graphs/Figures. 4-Most of formulas must be retyped, e.g. equation 33, <math>f(R)</math> yet there is no <math>R</math>. 5-Lots of english typos. 6-Missed Important references in the topic.</b>
