

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_18709
Title of the Manuscript:	Charge Radii of B and D mesons in a Quark Model with two loop static potential
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The topic addressed is interesting, however, in order to accept the paper for publication, I would like to ask authors to clarify motivations and novelties in their approach as the topic is widely discussed in literature. Form factors and charge radii in a QCD are well-known. They must as well compare their results with findings found in literature where many are missed in the list of references. Numerical illustrations must be well-done and improved.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
